MESSAGE

My sincere greetings and heartfelt congratulations to the Batch 2015-2016 graduates, faculty and staff, school administrators, parents and guardians.

Today marks another milestone in your life as you commence your education. Your journey has just begun as you are about to embark on a new road towards success. In your pursuit for higher education, may you always strive for excellence and honor.

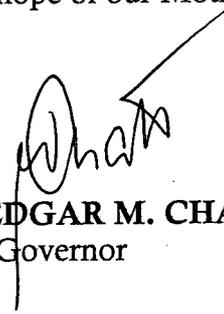

Cherish the memories you have shared with your classmates and friends. Foster the relationships you have formed because they have helped achieve your goals and inspired you to dream. Be thankful to your mentors and teachers for imparting their knowledge and guiding you all throughout. Thank your parents for the privilege of education. Make the community proud of you, dear graduates. Above all, be grateful to the One above who made all these possible.

Our Province's development framework is also geared towards the promotion of quality education as we believe education can help attain our primordial goal of addressing poverty. Our Provincial Government has continuously offered scholarship programs for financially-challenged but deserving students such as the CPG Scholarship Program and Educational Assistance/Subsidy Program. Likewise, to help our students and parents, we are giving the opportunity to learn and earn through our Special Program for the Employment of Students (SPES).

This is my challenge to you, dear graduates, be the change you want to see in the community. Make a difference! You are the future and the hope of our Motherland.

Again, Congratulations and God bless!

ATTY. EDGAR M. CHATTO
